

**\*\*APPROVAL FOR DATA CONSENT\*\***

Dear Parent,

We're delighted to announce that Premier Wellbeing's Fun-Triton programme is now being delivered at Cheselbourne Village School for the next half term. The initial 6-week programme, specifically designed for children in KS1 and KS2, provides fun and practical health and wellbeing lessons, teaching food education, cooking skills, nutritional advice and much more.

As an education provider, we are committed to making data driven decisions and evidencing the impact we have. We work *WITH* schools to help improve their quality of provision, PE, dance, drama and opportunities for children, and it's vital that we can support the schools we work with by accurately displaying the great work that's being done.

**We're now asking for you to help us!** Through a series of short and simple surveys, both before and after Fun-Triton lessons, we will now be **MEASURING** the impact that Fun-Triton is having, by measuring the **UNDERSTANDING** and **KNOWLEDGE** that children are developing through the 6-week Fun-Triton programme. The 5-minute surveys have been designed for you, as a parent, to sit down with your child and ask them a series of simple questions. This feedback will allow us to measure their progress and report back to the school, and you as the parent.

With impending EU legislation around data protection, we ask that you opt-in to receive the vital survey links that will allow us measure your child's progress. By opting-in, you will only be consenting to receiving these communications, and will not be contacted regarding any other Premier programmes, events or promotions (unless you are already subscribed to the relevant mailing list).

**To opt in, please complete the details below and hand back to your school.**
