12 January 2010

Dear Parents

After two long years of planning building work is expected to begin on the new office on Monday 18 January.

A meeting was held at the school with everyone involved in the building work and Chris Timlin - one of your governors with expertise in this area. I must say it is really good to have his expertise at our disposal. The main aim of the meeting was to ensure the safety of everyone during the build but, obviously, most especially the children.

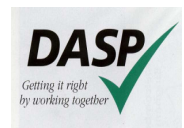

The front playground will be the builders 'base' whilst the building work takes place. Fencing will be erected and no one will be allowed into this space. This means that the small gate will not be in use, nor will anyone be able to come to the front door. Everyone must use the large gate, walk round the back and enter the building through the reception area. Please note the reduced head height of this covered area!

Healthy Schools

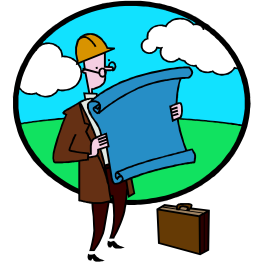

INVESTORS IN PEOPLE

It is even more important that no child is left unattended during this period even though they will be in the back playground. We will bring the children in at 8.50 as usual.

Some of the children will be making badges for the contractors in the next few days so that they can identify them and they will be supplying us with some of the materials they are using such as plans, time charts etc so we can keep the children up to date with what is happening. We will use the actual building as a learning tool - learning can't get much better than that.

Do speak with Mrs White if you have any concerns and I know you will be patient with us during this time if things are not just as they usually are.

Thank you.

Bob Duffin
