

Tue 19th Jan 2010

Dear Parents,

I am sure that we have all been saddened and touched by the disaster unfolding in Haiti following the tragic earthquake there on the 12th January 2010. Today we have had a special assembly on this and the children have had time to reflect on its significance to us all.

The only way we can really help these people is by raising money for them. We will be having a 'Non-Uniform' day on Friday 22nd January 2010. Children may come to school in play or home clothes on this day. We will have a moment's quiet time during the day to remember all those that have lost their lives. We ask please that each child or family send in a minimum donation of £1. This money will be sent to the UNICEF Haiti Earthquake Children's Appeal to support children affected by the recent earthquake. Please will you send this in enclosed in an envelope marked 'Haiti Earthquake Appeal'

Building work

Thank you for your cooperation at this time of building work going on at the front of the school. The builders have already begun to dig the foundations! The project is due to be completed on 15th May 2010 and the children will be following its progress each week. During the change in access to the school, would parents please ensure that their children do not play any of the wheeled vehicles in the playground before or after school. Do please come and have a look at the plans and drawings of the new office in the conservatory.

Kind regards,

Bob Duffin
Acting Headteacher.
