

We've had lots of trips this half term and here are a few to give you a taster of our term :-

Rebecca, Josie, Oscar and Harry set off for Sturminster High with St Mary's Puddletown to engage in a day of cooking launching a new initiative - Cooking for Schools. Mrs Folley and Mrs Price will be running a cooking club where the children will be encouraged to cook 'from scratch' healthy recipes which they can then share at home. We hope to join with some of our seniors too so that they can share in some of the children's culinary delights.

As part of our Centenary celebrations Lucy Sewill came today with a cherry-picker and tractor belonging to James to take 100 year photos from about 50 feet above the school. It was scary to watch but the children loved sitting in the tractor after - a special treat.

Andrea, from the West Dorset Sports team worked with Class 2 orienteering.

Reception built garages and practised 'parking'.

Reception used large construction equipment to erect buildings.

Tesco have stopped giving out vouchers but do send in any you still have. We have about 13,000 so far. Thank you everyone. If you have any Flora or newspaper tokens for free books, do drop them into the school. We use them all. Thank you for the ones that we've had already.

St Dunstan's Church in Upton is collecting the lids from plastic milk containers. These are going to be used to make children's toys for those with none. Do drop any in to Ann in the school and I will pass them on. Thank you.
